Thank you for your interest in 'Your Doctor', Australia's first and most respected personalised practice newsletter, established in 1992.

Simply print the forms out and fax them to us.

You will receive a fax or an email from us within a couple of working days with artwork attached as a PDF, showing your practice information displayed in an appealing manner.

As promised, you will then receive your first order of up to 500 copies. You can adjust the number of copies thereafter, with the option of cancelling your subscription before your second newsletter is due, if you so wish. If you do cancel your subscription before your second order, you will not be charged for the number ordered, less 100 copies. Please note that order quantities can be made in increments of 50 (ie: 100, 150, 200 and so forth).

For example, if you order 500 copies and cancel your subscription before your second order, you will be charged only \$98 + GST as opposed to the full \$193 + GST. If you order 100 copies and cancel your subscription, you will not be charged at all!

We offer this option as a courtesy, but we're so confident of your full satisfaction with our outstanding newsletter, that you will stay with us as many hundreds of subscribers have throughout the years, and continue to do so.
